CPC Announces Intent to Move to Larger Manufacturing and Warehousing Facility Near Shanghai

Dear Valued Customer,

We thank you for your business and are pleased to announce the expansion of our production and warehouse capacity with a move to a larger facility that will be operational in the Fall of 2026. CPC is making the move from our Suzhou facility within the Suzhou Industrial Park to the Suzhou Xinglong Industrial Park in Taicang City within the Jiangsu Province.

The new facility more than doubles CPC's manufacturing and warehousing space and supports plans to expand production capacity for industrial, medical, and thermal management products, to better service the China market, and customers globally.

The move to Taicang City is being coordinated to minimize any customer disruptions and any proposed changes to customer order patterns will be shared in the coming months, along with banking details for the transition from the legal entity under which CPC China currently operates. Initial plans are to have the new site fully validated and operational in Q4 of 2026, including certifications to ISO 9001 and 13485 quality system requirements.

We are currently in the planning stages and finalizing details of the expansion. We will communicate additional information on timelines and affected products in the coming months.

We are excited to initiate this project as a pathway to continued growth and improved service to you and your customers!

Sincerely,

Michael Studer, VP and General Manager of CPC

CPC 官宣迁至太仓扩建生产工厂和仓库

尊敬的客户，

感谢您一直以来的支持！我们很高兴地宣布，我们将扩大在中国的生产和仓储能力。CPC 将从现有的江苏省苏州工业园区内的工厂迁至江苏省苏州太仓市幸龙工业园区太平北路 168 号 6 号厂房的更大工厂，新工厂预计将于 2026 年秋季投入运营。新工厂将使 CPC 在中国的生产和仓储空间扩大一倍以上，并扩大我们在工业、医疗和热管理产品上的产能，从而更好地服务于中国市场和全球客户。为最大程度减少对客户的影响，我们正在协调搬迁至太仓市的各项事宜。任何可能对客户订单模式造成的变更，以及 CPC 中国目前运营的法律实体变更过渡所需的银行信息，都将在未来几个月内与您分享。新工厂初步计划将于 2026 年第四季度完成全面验证并投入运营，并获得包括 ISO 9001 和 ISO 13485 质量体系认证。我们目前正处于规划阶段，并正在敲定扩建细节。未来几个月，我们将公布更多关于时间表和受影响产品的信息。我们很高兴启动此项目，这将有助于我们的可持续发展，并提升客户满意度！

此致

敬礼！

Michael Studer
CPC 副总裁兼总经理
